SUPER POWER INDIA 2030

HYPER WAY PROJECT

We have created a huge socio-economic plan called “The hyper way project” to resolve all the problems prevailing in the country and to transform India into rich and the world super power.

- A detailed 5 years strategy that rapidly expands the country’s economy by meeting the natural issues of every citizen; thus making The Republic of India, a rich and superpower nation.
- An inconceivable schedule that transforms all hard working and poverty-stricken to wealthy and prosperous individuals; firstly beginning with the India and then globally one by one.
- The great plan that not only makes changes in the structural map of India, but worldwide and becomes only a benefit and a great advantage for all.
- The most important and special feature is that this project will earn the government crores of rupees without any single expenditure met.

The effects that will be accomplished by this 5 years project are as follows:

1. A gradual and steady increase in the revenue of the government to 2000 lakh crores and more (2 Quadrillion).
2. India’s GDP will upsurge to \$30 trillion and more by 2030.
3. GDP per capita will be \$21,512.
4. Our country will become the fastest growing economy in the world.
5. India will hold the Foreign exchange reserves of 4000 Billion USD.
6. Gold reserves 10,000 - 20,000 tonnes.

7. India will remain as one amongst the richest countries in the world.
8. Our country will have the highest number of billionaires and happiest people in the world.
9. Indian currency will be transacted as the global currency.
10. India will rank first in having the strongest world's military power.
11. 100% employment opportunities will be guaranteed to every citizen of the country with a minimum salary of Rs.25,000 per month.
12. Owning a house is a prevailing dream in most of us. By 2030, it will be redesigned with the possibility of making that dream memorable.
13. Apart from the golden quadrilateral highway; which is considered as one of the longest highways in the world, India will have the longest road length and express hyperway networks for 1,00,000 km.
14. 400 Hyper cities will be constructed with a living capacity of 60-70 crores.
15. India, now being the world's fourth longest railway network in the world, has an operating route length of 65,000 km nationwide. Increased rail capacity for people and freight, biggest high speed projects, bullet trains, hyperloop for 1,00,000 km connecting places across the country will lead India to have the longest and busiest railway networks amongst the world countries.
16. Air travel has become an integral part of life. India's powerful economy, fairly high income per capita, extensive business environment will lead to have the highest number of air passengers in the world.
17. Hundreds of new airports and ports will be constructed.
18. Debts and deficits have been a serious problem prevailing in the country for both people and government which will be solved and characterized by India's market driven economy, a lucrative financial banking sector, balanced budget, well – regulated financial control and this will lead the country, a debt free nation. Amongst these includes the agricultural, education, housing, personal and other loans too. External and internal government debts will also be cleared during this period.

19. Free and quality education will be provided to everyone that emphasizes the public good and our country will set a record with no illiterates worldwide.
20. Effective and improved quality of health care facilities will be distributed complimentary throughout the nation. Around 400 AIIMS hospitals will be constructed all over the country for free medical treatment.
21. Poverty will be eradicated completely.
22. Agriculture will become the most important and profitable business all over the country.
23. All direct and indirect taxes will be eliminated making India, a tax free country.
24. Government employees will be offered a hike in their salary double the times of what they receive then.
25. More than 10 crore jobs in the state and central level will be fulfilled.
26. India will have the largest power supply in the world. An uninterrupted power supply will be given throughout the country 24/7 free of cost.
27. All types of pollution will be controlled to the maximum extent and hence a clean and a healthy nation will be developed.
28. Sexual assault, murders, theft, beggars and other crimes will be destroyed.
29. Communal riots, Caste discrimination and other issues will never happen anymore in the homeland of India.
30. Alcohol and other drugs will be abolished.
31. Petrol and diesel prices will be lowered to less than Rs.30 per liter.
32. Inter-state river water disputes shall be resolved and all the rivers in the country will be interlinked.
33. India will remain as one of the manufacturers of all the well-known brand in the world.
34. License and approval for any type of small scale & large scale industries shall be granted within 24 hours.

35. Foreign direct investment will be more than 1,000 lakh crores.
36. The concerns of Fishermen, Traders, Weavers, and Labors of fireworks will be resolved immediately.
37. India will have the highest number of Startups and Social Media Networks.
38. Our country will develop the best in Space, Science and Technology amongst the other nations.
39. Three important forces (AIR, NAVAL, and MILITARY), Police, CRPF etc, who risk their lives for the wellness of the nation will be given double the salary and other incentives of what they receive now.
40. Pension for old aged, Transgender, Physically challenged and Home makers shall receive a scholarship of Rs.25,000 per month.
41. The problems of crores of pending cases in Indian courts shall be resolved by increasing number of Courts, Judges and Lawyers.
42. India will become super power by 2030.
43. The Era of Golden age will be established.

This socio-economic plan can solve much more issues and thus a new India will be formed.
